Manager / Senior Civil Engineer

Yeats is a Consulting company providing services in civil, structural, water and infrastructure engineering, project delivery, approvals management and environmental science. Formed in 2006, the company's capabilities are rapidly growing and include preliminary planning, environmental assessments and approvals, feasibility analyses, detailed engineering design and major infrastructure works.

The company has offices in Brisbane, Melbourne, Gold Coast, Mackay and Gladstone. Yeats provides services to both private industry and Local and State Government across Queensland, Victoria and New South Wales.

We have an opportunity for a suitably experienced Manager / Senior Civil Engineer to join our Gladstone Civil department.

Role

Yeats requires an experienced and proactive Manager / Senior Civil Engineer with strong relationship and business development skills to take a managerial role and further develop their Gladstone consulting business. In this key role you will be responsible for adding to the Civil Engineering Business Unit, with design and management capabilities for infrastructure, land development and water projects. You will also be responsible for mentoring the engineering team while developing and fostering key relationships with consultants and clients.

You will be reporting directly to the Yeats Directors, and you will oversee the development and management of projects through all stages including concept, feasibility, acquisition, planning and design, procurement, construction, and commissioning.

Your Attributes

- Bachelor of Civil Engineering or equivalent;
- Minimum 10 years experience in civil engineering design and/or construction - infrastructure & development;
- High level capabilities in design, documentation & project management. Experience in Contract Administration and Superintendency work is highly desirable;
- Management experience at senior level;
- Outstanding communication and analytical skills; and
- Client liaison & relationship building capabilities.

Personal Competencies

- Ability to work in a team environment
- Excellent communication skills, both written and verbal
- Self motivated
- Project/Client problem-solving focus
- Ability to develop good business relationships

A competitive salary package will be offered to the suitable applicant, based on qualifications, skills and experience. For the exceptional candidates, shareholding opportunities may be available.

Ideally applicants will have all of the skills and competencies above, but candidates who satisfy most of these requirements are still encouraged to apply.

Please email your covering letter and current CV to hr@yeats.com.au
