Senior Flood/Water Resources Engineer

Yeats is a National Consulting company providing services in energy and resources, infrastructure, environmental, property and buildings. Formed in 2006, the company's capabilities are rapidly growing and include preliminary planning, environmental assessments and approvals, feasibility analyses, detailed engineering design and major infrastructure works. Environmentally, the majority of our work is within the mining industry; however, there are opportunities to work on infrastructure, development and conservation projects from time to time.

The company has offices in Brisbane, Sydney, Perth, Melbourne, Gold Coast, Mackay, Gladstone and a newly opened office in China. Yeats provides services to both private industry and Local and State Government across Australia.

We have an opportunity for a suitably experienced Senior Flood/Water Resources Engineer to join our Gold Coast or Brisbane team to assist in the management and coordination of the Water and Environment Group.

Primary Functions

- Project management and team leadership
- Technical input into flood studies/models (1D and 2D);
- Report writing;
- Consultation and liaison with government agencies, approval bodies, etc. various external parties;
- Review of engineers and graduate engineers models and reports; and
- Mentoring junior members of the Yeats environment group.

Qualifications

Tertiary qualifications in Civil/Environmental Engineering.

Specific Skills and Experience

- Minimum 8 years experience in stormwater engineering;
- Knowledge of XP-Rafts, WBNM, Tuflow and Hec-Ras is essential and knowledge of Mike11 and MikeFlood are considered an advantage;
- Previous exposure to WSUD, water cycle management plans and studies;
- Knowledge and understanding of Queensland and/or NSW legislation and practice would be an advantage; and
- Previous experience in a consulting environment would be an advantage but not essential.

Personal Competencies

- Leadership skills;
- Ability to work in a team environment;
- Self motivated;
- Project/Client problem-solving focus;
- Ability to develop good business relationships.

A competitive salary package will be offered to the suitable applicant, based on qualifications, skills and experience.

Ideally applicants will have all of the skills and competencies above, but candidates who satisfy most of these requirements are still encouraged to apply. This role is only available to residents of Australia or to those who hold valid working visas or permits.

Please email your covering letter and current CV to hr@yeats.com.au.
