Senior Traffic Engineer

Yeats is a National Consulting company providing services in energy and resources, infrastructure, environmental, property and buildings. Formed in 2006, the company's capabilities are rapidly growing and include preliminary planning, environmental assessments and approvals, feasibility analyses, detailed engineering design and major infrastructure works. Environmentally, the majority of our work is within the mining industry; however, there are opportunities to work on infrastructure, development and conservation projects from time to time.

The company has offices in Brisbane, Sydney, Perth, Melbourne, Gold Coast, Mackay, Gladstone and a newly opened office in China. Yeats provides services to both private industry and Local and State Government across Australia.

We have an opportunity for a suitably experienced Senior Traffic Engineer to join our Gold Coast or Brisbane team.

Primary Functions

- Review development designs in accordance with appropriate standards/policies and provide advice to project teams where necessary;
- Design and organise traffic data collection activities relevant to project scope in conjunction with Data, Traffic data manipulation and interpretation;
- Traffic analysis using conventional methods and software applications (SIDRA/Transyt);
- Liaise with local and state authorities;
- Preparation of reports suitable for submission to authorities; and
- Mentoring junior members of the Yeats civil group.

Qualifications

Tertiary qualifications in Civil Engineering.

Specific Skills and Experience

- Minimum 8 years experience in traffic engineering;
- Knowledge and understanding of Queensland and/or NSW legislation and practice would be an advantage; and
- Previous experience in a consulting environment would be an advantage but not essential.

Personal Competencies

- Ability to work in a team environment;
- Self motivated;
- Project/Client problem-solving focus;
- Ability to develop good business relationships.

A competitive salary package will be offered to the suitable applicant, based on qualifications, skills and experience.

Ideally applicants will have all of the skills and competencies above, but candidates who satisfy most of these requirements are still encouraged to apply. This role is only available to residents of Australia or to those who hold valid working visas or permits.

Please email your covering letter and current CV to hr@yeats.com.au.
