Structural CAD Technician

Yeats is a Consulting company providing services in civil, structural, water and infrastructure engineering, project delivery, approvals management and environmental science. Formed in 2006, the company's capabilities are rapidly growing and include preliminary planning, environmental assessments and approvals, feasibility analyses, detailed engineering design and major infrastructure works.

The company has offices in Brisbane, Sydney, Melbourne, Gold Coast, Perth, Mackay and Gladstone. Yeats provides services to both private industry and Local and State Government across Queensland, Victoria and New South Wales.

We have an opportunity for a suitably experienced Structural CAD Technician to join our Gold Coast office, who will report directly to our Structural Manager.

Job Purpose:

We require a Structural CAD Technician to provide engineering drafting services to the Group on projects as required.

Qualifications:

Tertiary qualifications are preferable, plus typically 5-8 years relevant work experience.

Requirements:

- Relevant industry experience and/or appropriate technical qualification or currently undertaking a recognised training program.
- Must be able to work as part of a Team and with a minimum Engineers brief to produce Structural drawings of a high standard to company CAD and Drawing Standards suitable for construction purposes.
- Good general computer and IT skills.
- Good communication skills, experience in dealing with other employees and external consultants.
- Confident, proactive character, ability to take the lead in challenging situations.
- Experienced working in a one on one basis, and in a team environment.
- Must have detailed knowledge of reinforced concrete and structural steel detailing.
- Highly competent in the use of AutoCad.
- Knowledge of Revit 3D is highly desirable.

Key Responsibilities:

- Work competently on an independent basis.
- Use job/project administrative systems.
- Manage the deliverables for a project to deadlines.

A competitive salary package will be offered to the suitable applicant, based on qualifications, skills and experience.

Please forward a covering letter and current CV to hr@yeats.com.au. Applications close Wednesday, 31st August 2011.
